JULY 2014

NEW PRODUCTS AVAILABLE

Mighty-Rite[®] Steel Split Grounding Bushings

Bridgeport's SGBS series of steel split grounding bushings can be installed before or after conductors have been pulled. This eliminates the need for expensive rework.

Our patented hinge design allows for easier alignment than a standard grounding bushing, even when installed in tight places.

Available for 3/4" through 4" trade size Rigid/IMC conduit or fittings, with multiple lug configurations.

Material:

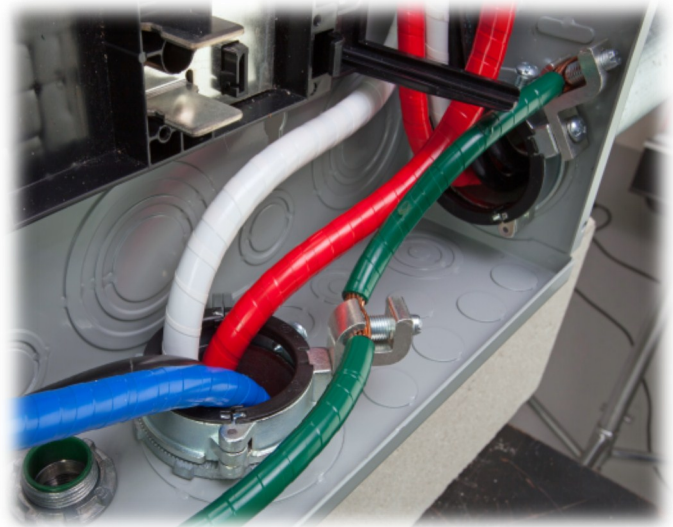

Zinc plated Steel Body and Hardware

150°C rated PA46 polyamide plastic Insulated Throat

Tin plated Aluminum Alloy Grounding Lug

UL 514B, UL 467 and CSA C22.2 No.18.3
