

The PLANEX®

PLANEX® is a flat panel LED light source designed to replace a standard ceiling tile.

This low profile LED luminaire provides up to 50,000 hours lamp life or an estimated 20 year life cycle.

PLANEX® is available in 1'x1', 2'x2', 1'x4' and 2'x4' sizes. Mounting comes standard for grid ceilings, adjustable 50" aviation cable for suspension mount, surface and recessed drywall kits are offered.

1-10V dimming is standard.

The perimeter of the PLANEX® is enclosed by an extruded aluminum frame with a white paint finish.

Layers of light shaping diffusers provide effective and uniform light distribution without hot spots.

The 2'x2' PLANEX® is available with an optional 90 minute remote emergency driver.

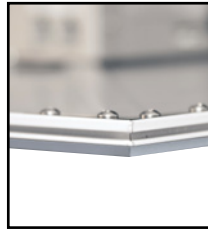

PLANEX® is ideal for offices, banks, retail, hotels, restaurants, schools and hospitals.
